We welcome new Asia House Partners:

Terma, an international company established in 1949 with facilities all over the world, covering four business segments: *Aerostructures, Space, Defense and Security & Surveillance.*

Carl Hansen & Søn, designing and producing furniture since 1908, combines traditional woodworking techniques with the latest technology to produce furniture of lasting value.

Happy New Year from Asia House!

Every news channel highlights that 2017 will be a year bringing change - as indicated by the photo above, Asia House is also changing: Our physical meeting rooms are being upgraded (and please save the date 21 February 13:30-15 to your calendars for our re-opening event), and we engage in new and exciting programs.

Industriens Fond will fund a comprehensive program aimed at enabling Danish companies to take part in the huge urbanization initiative "India 100 Smart Cities". Danida is funding capacity building and a delegation visit to Myanmar organized in cooperation with Asia House and Andersen Consult. Together with Novo we host a high-ranking delegation from Bangladesh. These new initiatives will sharpen and emphasize the value that Asia House can deliver, but we will certainly not diminish our focus on holding events and business seminars of relevance to our partners and members.

Best regards,

Susanne Rumohr Hækkerup, Executive Director
