CONNECTING DENMARK AND ASIA

- **Access to a unique network** of companies, startups, embassies, philanthropic foundations, trade associations, cluster organisations, educational institutions and innovation hubs, all focusing on Asia.
- **An opportunity to set the agenda** in a historic organization that has been building bridges between Denmark and Asia since 1898. Access to strategic roundtable discussions, masterclasses, conferences and cultural events.
- **A 40% and 60% discount** on some of the exquisite meeting rooms and event facilities at the historic Asia House building, just around the corner from the Little Mermaid.

WHY ASIA AND WHY ASIA HOUSE?

Asia has become the global hub for innovation and green transition. By 2030, Asia will account for 60% of global economic growth and two-thirds of the world's *new* renewable energy capacity. For Denmark, the question is no longer *if* we should engage with Asia, but *how* we can do so wisely.

This is where Asia House comes into the picture. Since 1898, we have connected Denmark with Asia, first as Denmark's largest trading company, EAC, and later as a neutral knowledge hub and meeting place where relationships are formed across sectors and interests.
